### TABLES

4.1	Summary Statistics: Levels and Long-Term Effects	68
4.2	Summary Statistics: Changes and Short-Term Effects	68
4.3	Determinants of Public Health: Levels and Long-Term Effects, 1999–2002	70
4.4	Determinants of Public Health: Changes and Short-Term Effects, 1999–2002	73
5.1	Summary Statistics	80
5.2	The Effect of Conflict on Fertility Rates, 1960–1999	83
5.3	The Effect of Conflict on Infant Mortality Rates, 1960–1999	87
5.4	The Effect of Conflict on Male Life Expectancy, 1960–1999	91
5.5	The Effect of Conflict on Female Life Expectancy, 1960–1999	94
6.1	Summary Statistics	106
6.2	Health and General Infrastructure	108
6.3	Life Expectancy	109
6.4	Infant Mortality	110
6.5	Fertility Rates	111

7.1	Effect of Conflict on Economic Resources, 1970–2000	123
7.2	Summary Statistics for Defense-Welfare Model, 1970–2000	126
7.3	Defense, Health, and Education Spending During Conflict, 1970–2000	127
8.1	Summary Statistics	142
8.2	Refugee Flows and Public Health, 1965–1995	144
<b>FIGURES</b>		
3.1	Conflict and Health: The Conceptual Framework	43
4.1	HALE and Total Life Expectancy in Two Countries	56
4.2	HALE for 191 Countries	57
4.3	War and HALE	61
4.4	Conflict Frequency and HALE	62
4.5	Democracy and HALE	64
4.6	GDP and HALE	66
4.7	Education and HALE	67
4.8	The Effect of Conflict on Levels of HALE	71
5.1	Fertility Rates, 1960–1999	81
5.2	Infant Mortality Rates, 1960–1999	86
5.3	Male Life Expectancy, 1960–1999	90
5.4	Female Life Expectancy, 1960–1999	93
6.1	War, Infrastructure, and Health	102
7.1	Public Expenditures in the Absence of Conflict	129
7.2	Public Expenditures in the Presence of Minor Conflict	129
7.3	Public Expenditures in the Presence of Major Conflict	130
7.4	Public Expenditures in the Presence of Both Minor and Major Conflict	130
8.1	Trends in Refugee Flows, 1965–1995	136
8.2	Bivariate Relationship Between Refugee Inflows and Infant Mortality, 1965–1995	140
8.3	War, Refugees, and Health	140
