

List of Tables and Figures

TABLES

- 1.1 Surface-Water Discharges, 1999–2003, 9
- 1.2 Clean Water Act Enforcement Activity, Fiscal Years 1999–2003, 10
- 1.3 National Pollutant Discharge Elimination System (NPDES) Enforcement Activity, Fiscal Years 1999–2003, 12
- 4.1 Discharge Limits: Summary Statistics, 58
- 4.2 Discharge Limits by EPA Region: Summary Statistics, 60–61
- 4.3 Discharge Limits by Chemical Manufacturing Subsector: Summary Statistics, 62–63
- 4.4 Discharge Limits by Facility Size Category: Summary Statistics, 64
- 4.5 Discharge Limits by Sample Year: Summary Statistics, 66–67
- 5.1 Depiction of Environmental Behavioral Measures: Full Sample, 82–85
- 5.2 Hypothesis Testing: Effects of Discharge Limits on Environmental Behavior, 95–114
- 6.1 Discharges: Summary Statistics, 159–160
- 6.2 Hypothesis Testing: Effects of Discharge Limits on Environmental Performance, 165–166
- 6.3 Hypothesis Testing: Effects of Environmental Behavior on Environmental Performance as Measured by Discharge Ratio Based Jointly on TSS and BOD Quantity and Concentration Discharges and Limits, 174–177
- 6A.1 Environmental Performance: Subsamples Based on Facility Location—EPA Region, 188

- 6A.2 Environmental Performance: Subsamples Based on Facility Sector, 189
- 6A.3 Environmental Performance: Subsamples Based on Facility Size, 190
- 6A.4 Environmental Performance: Subsamples Based on Year, 190
- 8.1 Effect of Deterrence on Environmental Behavioral Decisions, 226–241

FIGURES

- 6.1 Discharge Ratio of Median Facility, 161
- 6.2 Sector-Specific Median Discharge Ratio, 162
- 6.3 Effect of TSS Limits on TSS Quantity-based Discharges, 167
- 6.4 Effects of Environmental Behavior on Discharge Ratio, 179
- 7.1 Average Number of Inspections per Month per Facility: State Inspections and Federal Inspections, 203
