Figures

| | | |
|-----|--|-----|
| 1.1 | Three ways foreign investment can challenge environmental regulation | 9 |
| 1.2 | Foreign investment in pollution-intensive sectors | 10 |
| 2.1 | Organization of the Chinese environmental protection system | 31 |
| 3.1 | Perceptions of China's environmental regulation vs. its Asian neighbors | 79 |
| 3.2 | Comparisons of perceived stringency of air pollution regulations | 80 |
| 3.3 | Comparisons of perceived stringency of water pollution regulations | 81 |
| 3.4 | Comparisons of perceived stringency of chemical waste regulations | 81 |
| 3.5 | Perceptions of China's environmental regulation vs. countries with a similar income level, 2007 | 82 |
| 4.1 | Provincial averages for FDI vs. percent wastewater meeting standard | 91 |
| 4.2 | Provincial averages for FDI vs. percent SO ₂ emissions meeting standard | 91 |
| 4.3 | Provincial averages for FDI vs. environmental governance implementation rate | 92 |
| 6.1 | Impact of foreign control on environmental performance of companies in pollution-intensive sectors | 160 |

| | | |
|-----|---|-----|
| 6.2 | Environmental ranking by country/region of origin | 161 |
| 6.3 | Environmental ranking of foreign firms | 162 |
| 6.4 | The manifestation of green supply chain policies? | 165 |
| 6.5 | Environmentalizing East Asia | 174 |

Tables

| | | |
|-----|--|-----|
| 2.1 | Examples of China's environmental protection laws | 24 |
| 2.2 | China's environmental protection programs | 26 |
| 3.1 | China's expanding legislative framework governing FDI | 66 |
| 4.1 | Outcomes in China's industrial environmental governance | 89 |
| 4.2 | Foreign investment levels in nineteen chemical parks across five Chinese provinces, 2004 | 97 |
| 6.1 | Background information on the three cities included in the Green Watch survey | 152 |
| 6.2 | Firm ranking—population sample versus Green Watch survey sample | 154 |
| 6.3 | Oprobit estimates for the effect of foreign ownership on firm environmental behavior | 158 |
