

TABLES AND FIGURES

Tables

I.1	Recent epochs of U.S. higher education	5
4.1	Inductive approaches to defining organizational forms	88
4.2	Reported characteristics for sample college in IPEDS database	98
4.3	LDA categories inferred from the internal structure and routines of U.S. postsecondary institutions	102
4.4	LDA categories inferred from the demographic niches of U.S. postsecondary institutions	103
4.5	LDA categories inferred from mission statements of U.S. postsecondary institutions	104
6.1	Headcount of students enrolled as a percentage of the total undergraduate enrollment in U.S. institutions, 2010–2011 academic year	135
6.2	Percentage of first-year undergraduates in each type of U.S. postsecondary institution, 2007–2008 academic year	135
9.1	Average earnings, nonsalary benefits, annual turnover, and proportion of workers with professional or doctoral degrees	231
10.1	Programs/policies at one CSU campus, pooled 2002 and 2003 first-time freshmen	244
10.2	Six-year completion rates at one CSU campus, by program/policy, pooled 2002 and 2003 first-time freshmen	244
10.3	Mean differences in student characteristics at one CSU campus, by program/policy, pooled 2002 and 2003 first-time freshmen	246
10.4	Regression-adjusted program/policy effects	248

10.5	Baseline and simulated graduation rates at one CSU campus, pooled 2002 and 2003 first-time freshmen	250
10.6	Projected versus actual six-year graduation rates following mandatory freshman orientation policy in 2004	251
11.1	A research framework for U.S. higher education	262

Figures

3.1	For-profit enrollment, all Title IV–eligible colleges, 1990–1991 to 2010–2011	62
3.2	For-profit students as proportion of all enrollees in Title IV–eligible colleges	62
6.1	Percentage of first-year undergraduates, 2007–2008	136
6.2	First-year undergraduate students, 2007–2008	137
6.3	Interactive multiple dimensions of diversity	149
6.4	Coordinated, multistage, research-practice loop	154
8.1	Percentage of population saying they agree with each statement	204
9.1	Evolution of salary and nonsalary benefits over time, 1989–2009	219
9.2	Relative importance of types of instructor across different types of higher education institutions, 2002–2009	221
9.3	Proportion of adjunct faculty over time, by type of institution, 2002–2009	223
9.4	Distribution of instructor types by type of institution and type of course taught	224
9.5	Average annual turnover from higher education teaching, 1990–2010	229
10.1	Differences in anticipated benefits of mandatory orientation policy, by methodology	252
