

## *Figures and Tables*

### FIGURES

- 3.1 Justices and Case Stimuli in a Unidimensional Space 34
- 3.2 Justice 1's "Ideal Point" and Case Stimuli in a Unidimensional Issue Space, with a "Response Function" Based on Schubert's Proximity Model 35
- 3.3 Three Justices and Case Stimuli in a Unidimensional Issue Space, with "Response Functions" Based on Schubert's Ordinal Model 36
- 5.1 An Ideal Point and a Single-Peaked Utility Function 81
- 5.2 Symmetric and Asymmetric Utility Functions 83
- 5.3 Preferred-to Sets and Win Sets for Five Justices 86
- 6.1 Illustration of Proposition 6.1: SQ Cannot Be Changed 98
- 6.2 Illustration of Proposition 6.2: SQ Can Be Changed 99
- 6.3 Draft Opinion Outside  $W_{jmed}(SQ)$  Cannot Gain Majority Support 101
- 6.4 Politically Feasible Policies When SQ Is between  $J_3$  and  $J_4$  103
- 6.5 Politically Feasible Policies When SQ Is between  $J_4$  and  $J_5$  104
- 6.6 Politically Feasible Policies When SQ Is to the Right of  $J_5$  105
- 6.7 Outcomes from the Agenda-Control and Open-Bidding Models 110
- 6.8 Coalition Sizes with SQ to the Right of  $J_5$  112
- 6.9 Coalition Sizes with SQ between  $J_4$  and  $J_5$  114
- 6.10 Coalition Sizes with SQ between  $J_3$  and  $J_4$  116
- 6.11 Multiple Ways of Producing a 7-2 Coalition 124
- 7.1 What Majority Opinion Would Each Justice Write? 141
- 7.2 Only the Opinion Assigner Lies Outside  $W_{jmed}(SQ)$  144

xii Figures and Tables

- 7.3 The Opinion Assigner and Just One Other Justice Lie Outside  $W_{jmed}(SQ)$  145
- 7.4 The Opinion Assigner and at Least Two Other Justices Lie Outside  $W_{jmed}(SQ)$  147
- 7.5 The Opinion Assigner Has an Ideal Point Just Inside the Outside Boundary of  $W_{jmed}(SQ)$ , and All Other Justices Have Ideal Points Closer to SQ or on the Minority Side 149
- 7.6 The Opinion Assigner Has an Ideal Point Just Inside SQ that Is Closest to the Outside Boundary of  $W_{jmed}(SQ)$ , At Least One Justice Lies Outside  $W_{jmed}(SQ)$ , and At Least One Justice Lies Closer to SQ 150
- 7.7 The Opinion Assigner Has an Ideal Point in  $W_{jmed}(SQ)$ , and At Least Two Other Justices (At Least One on Each Side of the Assigner) Have Ideal Points in  $W_{jmed}(SQ)$  151
- 7.8 The Opinion Assigner's Ideal Point Is Adjacent to SQ and All Other Ideal Points Lie to the Outside 152
- 7.9 The Opinion Assigner Is Adjacent to SQ, At Least One Other Justice Lies Inside SQ But Farther from SQ Than the Assigner, and At Least One Justice Lies on the Minority Side 154
- 7.10 Choosing an Opinion Assignment When the Resulting Coalition Sizes May Differ 159
- 8.1 Strategic Behavior by a Chief Justice with a Minority-Side Ideal Point 170
- 8.2 Strategic Behavior by a Senior Associate Justice with a Majority-Side Ideal Point Lying to the Right of the Chief Justice 178
- 8.3 Strategic Behavior by a Senior Associate Justice with a Majority-Side Ideal Point Lying to the Left of the Chief Justice 181
- 8.4 Strategic Behavior by a Senior Associate Justice with a Minority-Side Ideal Point 185
- 8.5 Strategic Behavior by a Minority-Side Senior Associate Justice, with a Minority-Side Chief Justice 190
- 8.6 The All-Strategic Convergence Condition 198
- 8.7 The All-Strategic Nonconvergence Condition (a) 203
- 8.8 The All-Strategic Nonconvergence Condition (b): The Chief Justice Has a Majority-Side Ideal Point Outside  $W_{jmed}(SQ)$  204
- 8.9 The All-Strategic Nonconvergence Condition (b): The Chief Justice Has a Minority-Side Ideal Point 205

9.1	Granting Certiorari by Sincere Justices	218
9.2	Denying Certiorari by Sincere Justices	219
9.3	Voting on Certiorari by Strategic Justices	224

**TABLES**

8.1	Strategic Behavior by the Chief Justice	173
8.2	Strategic Behavior by the Senior Associate Justice	193
8.3	Strategic Behavior by a Low-Seniority Associate Justice	194
