

## FIGURES AND TABLES

### FIGURES

3.1 Finnish manufacturing production volume by industry (€ billions in 2000 prices)	58
3.2 Ratio of gross domestic expenditure on R&D to GDP	59
3.3 Postgraduate degrees in natural sciences and engineering in Finland	60
3.4 Nokia's sales by industry	65
5.1 Japan's trade balance in telecommunications equipment	102
5.2 Global and Japanese domestic cell phone markets, 2003	103
7.1 Global information and communications technology users (in millions)	151
8.1 Forecasted markets in bandwidth and energy, 2000	178
9.1 A typical claims-processing value chain	197
12.1 The system of knowledge and its forms	254
12.2 Forms of knowledge: The transformation matrix	257
13.1 Growth of R&D alliances in the ICT fields, 1976–2000	272
13.2 Organisation of R&D alliances in the ICT sector, 1976–2000	281
15.1 Analog mobile telephones per capita (%), 1983–2003	326
15.2 Digital mobile phone subscribers per capita, 1992–2003	327
15.3 Growth in mobile phone subscribers per capita, 1996–2003	327
15.4 Cumulative mobile infrastructure investments per capita	332
15.5 Total PTO investments per capita	333

## Figures and Tables

xii	<b>TABLES</b>	
	3.1	Market shares in NMT handsets in 1985 (total 83,525 units) 63
	6.1	Regimes in Japan's telecommunications sector 130
	7.1	Growth in information and communication technology use in select countries 153
	7.2	R&D potential 161
	7.3	Sector and source of R&D performance 163
	7.4	U.S. patents granted to emerging economies 165
	10.1	Essential features of open source 223
	12.1	Tacit knowledge and explicit knowledge 256
	13.1	Distribution of R&D alliances across ICT subfields, 1976–2000 274
	13.2	Ranking of countries by number of R&D alliances in the ICT sector 275
	13.3	Ranking of firms by number of R&D alliances in the field of microelectronics 276
	13.4	Ranking of firms by number of R&D alliances in the field of software 278
	13.5	Ranking of firms by number of R&D alliances in the field of telecommunications 279
	13.6	Organisation of R&D alliances across ICT subfields (columns sum to 100% by subfield) 282
	14.1	Revenue per employee of major wireline and wireless carriers, 2002 302
	14.2	Worldwide mobile communications subscribers by technology (in millions) 307
	14.3	Countries with CDMA operators, 2002 310
	16.1	Forms of governance for coordinating technical standardization 344
	16.2	Membership of 3GPP firms in a sample of other related SDOs and industry associations, 2003 348
	16.3	Fifteen most central actors in 3GPP work item coalition networks, 2000–2003 349
	16.4	Centrality of 3GPP member firms in private alliance networks, 1995–2001 350
	16.5	Descriptive statistics 353
	16.6	Means of standardization strategies by region of origin 353
	16.7	Summary of partial correlation analysis 354
